Analytical and driven professional transitioning from finance to technology,
aiming to leverage extensive problem-solving skills and a newfound passion for
programming. Seeking a Junior Backend Developer role to contribute to robust and
scalable backend solutions, integrating a strong foundation in data analysis
with a keen interest in backend technologies.

Education:

- Master of Business Administration (MBA)
  Western Sydney University, Ho Chi Minh City (Expected 2025)
- Vocational Degree in Software Engineering
  VTC Academy, Ho Chi Minh City (Expected 2025)
- Bachelor of Economics and Finance
  Royal Melbourne Institute of Technology (RMIT), Ho Chi Minh City
  (2012-2016)

Skills:

- Programming Languages: Java, Python, C#, JavaScript
- Web Technologies: HTML, CSS, React
- Database Systems: MySQL, H2
- Frameworks: Spring, .NET
- Tools: IntelliJ, Visual Studio Code, Visual Studio, Postman
- Methodologies: Agile/Scrum
- Soft Skills: Analytical thinking, logical reasoning,
  creative thinking, decision making, adaptability,
  collaboration, resourcefulness

Professional Experience:

Sales Manager
- Binh An High Tech Agriculture Co. Ltd, Ho Chi Minh
  (Feb 2022 - Present)

Lead customer acquisition strategies, manage distribution networks, and oversee financial operations, significantly enhancing business operations and client satisfaction.

Financial Analyst
- Ho Chi Minh City Securities Corporation (HSC), Ho
  Chi Minh (Jun 2017 – Mar 2021)

Developed detailed industry reports and investment insights, influencing key stakeholder decisions and enhancing client engagement strategies.

Vice CEO Assistant
- Ho Chi Minh City Securities Corporation (HSC), Ho
  Chi Minh (Nov 2016 – May 2017)

Supported strategic initiatives in pricing and marketing, leveraging market trends to drive competitive positioning and business growth.

Intern
- KPMG Co. Ltd, Ho Chi Minh City (Jun 2015 - Sep 2015)
  Assisted with financial audits and data analysis,
  gaining insights into financial processes and best
  practices within a leading global firm.

Projects:

Class Dojo (Team Leader - Backend Developer)
 - Developed a full-stack web application facilitating efficient classroom
   management. Resolved critical issues involving HTTPS/HTTP content
   security, ensuring seamless operation during presentations.

Tech stack include:

Front end: html, tail wind css, react js, react router dom, axion.

Back end: Java, spring boot, Hibernate, spring security, jwt

Database: MySql

Could: AWS RDS for database deployment, AWS EC2 for backend deployment and
Vercel for frontend deployment.
 - Our most challenging experience during this project was that our front-
   end, which is deployed through Vercel, uses HTTPS as default while our
   backend which is deployed on EC2, which uses HTTP. As a result, we got
   mixed content blocked right before our presentation.

Certifications:

CFA Level 1 – CFA Institute | 2016

IETLS 8.0 – IDP Education | June 202

Awards and Honors:

Golden Key award - Golden Key International Honour Society| 2015
